

I am Manjil Budhathoki, a computer science student focused on artificial intelligence. My academic journey is centered around exploring the intersection of machine learning, data science, web development, and game development. Recently, I have honed my expertise in machine learning, where I am dedicated to utilizing its transformative potential to address complex challenges and contribute to meaningful advancements in the field. I am passionate about collaborating with fellow researchers, practitioners, and innovators to share knowledge, engage in thought-provoking discussions, and work on projects that have a tangible impact.
